

METACOGNITION SONG

By Paul Lackey

Metacognition Niton Niton

We're on a mission mission mission

We're gonna think about what we read

Increase our **fluency**, yes indeed

We will, We will Read a book

We will, We will Read a book

Prediction is when we make a guess

Using info to guess what happens next

Questioning - how, what, who, when, where

To get deeper meaning and to make it clear

We will, We will Read a book

We will, We will Read a book

What are we doing when we **infer**?

Filling in the gaps, just to be sure

We're playing a movie in our brain

We're a **summarizing, analyzing, synthesizing** train

We will, We will Read a book

We will, We will Read a book

Making connections with everyday life

Comedy, tragedy, toil and strife

Patching up areas we don't understand

By **rereading, examining** the text at hand

Copyright 2005

*The "We will, we will read a book" line was derived from the popular song "We will rock you!" performed by Queen.
