

Our Strategic Planning Process

Focus on Learning

Plan for the full range of the human experience. Focus on literacy and customized pathways of learning. Optimize blended learning when needed. Utilize technology to transform learning. Create environment where all learning needs are met, including special needs and language needs. Optimize Career Technical Education and elective/extracurricular activities.

Meet Conditions for Learning

Plan for Student and Staff Safety, Health and Wellness. Utilized a district mental health coordinator. Utilize access control points at all building locations. Insert vape detectors at secondary schools. Provide nutritious meals. Remove barriers to learning. Create High Expectations for Learning. Create a Commitment to Equitable Learning Environments. Provide Effective Professional Learning Opportunities for Staff

Create a Readiness for Learning

Continue support and expansion of OSR Early Childhood preschools. Provide Social/Emotional Supports. Continue to Build Upon Parental Involvement and Family and Community Engagement

Operate and Maintain.

Provide well-maintained facilities and balanced operating budgets that support learning.

Provide Technology

Support District 1:1 Initiative. Support Technology Infrastructure, including the support of data management, governance and integration and exchange.

Meet Policy.

Continue to meet policy and updated needed procedures. Educate staff on policy for professionalism.

Balance Finances.

Maintain a balanced operating budget that supports equitable funding. Create a financial environment that supports learning. Utilize federal funding to support student learning.

Communicate Our Story.

Communicate to Inform, Engage, and Inspire staff, students and stakeholders. Continue to build the Boaz Brand. Engage in marketing and public relations as often as needed.
